

# HHP Special Plow Anchor

The Special Plow anchor is suitable for boats with a bow roller, both yachts and military vessels. The middle joint of the anchor allows it to adapt to any movement of the boat during the anchoring.

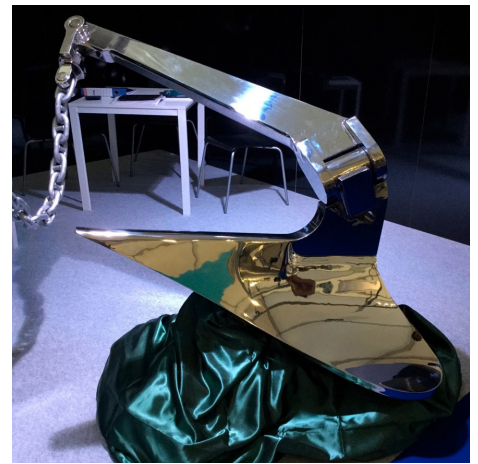

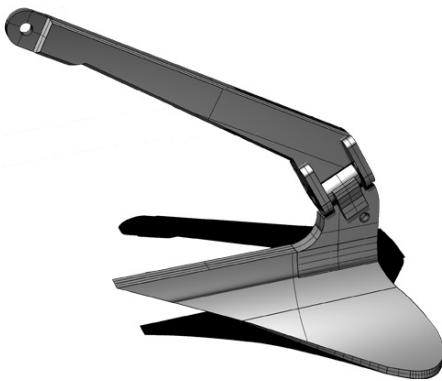

The Special Plow anchor is versatile and very suitable for sandy and muddy bottoms. Posidonia's **High Holding Power (HHP) anchors allow for a 25% weight reduction** compared to a mass anchor.

It is possible to shorten the stem by 10%.

Moreover, we can increase the weight on the upper side by up to +10% by using molten zinc to improve its holding capacity.

**Available in the following finishes:**

- Specific painting
- Hot-dip galvanized
- Super yacht execution
- Mirror polished Duplex Stainless Steel

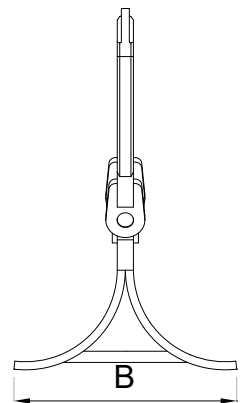

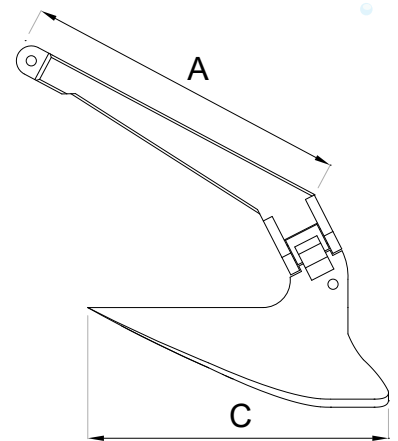

# HHP Special Plow Anchor

| Weight Kg | A mm | B mm | C mm |
|-----------|------|------|------|
| 48        | 672  | 404  | 659  |
