

SHHP Super Hawk Anchor

Super High Holding Power (SHHP or VHHP) Anchors allow a weight reduction of **50%** compared to an ordinary anchor.

The SUPERHAWK anchor is the only one of its kind to be Super HHP, the central part penetrates deeply into the ground, while the two side "wings" give it stability and increase the anchoring power, furthermore the lodging of the anchor can be total allowing it to adhere completely to the anchor pocket and reducing possible protrusions to a minimum.

Also suitable for military usage, ideal for tight anchorings.

Low magnetic stainless steel.

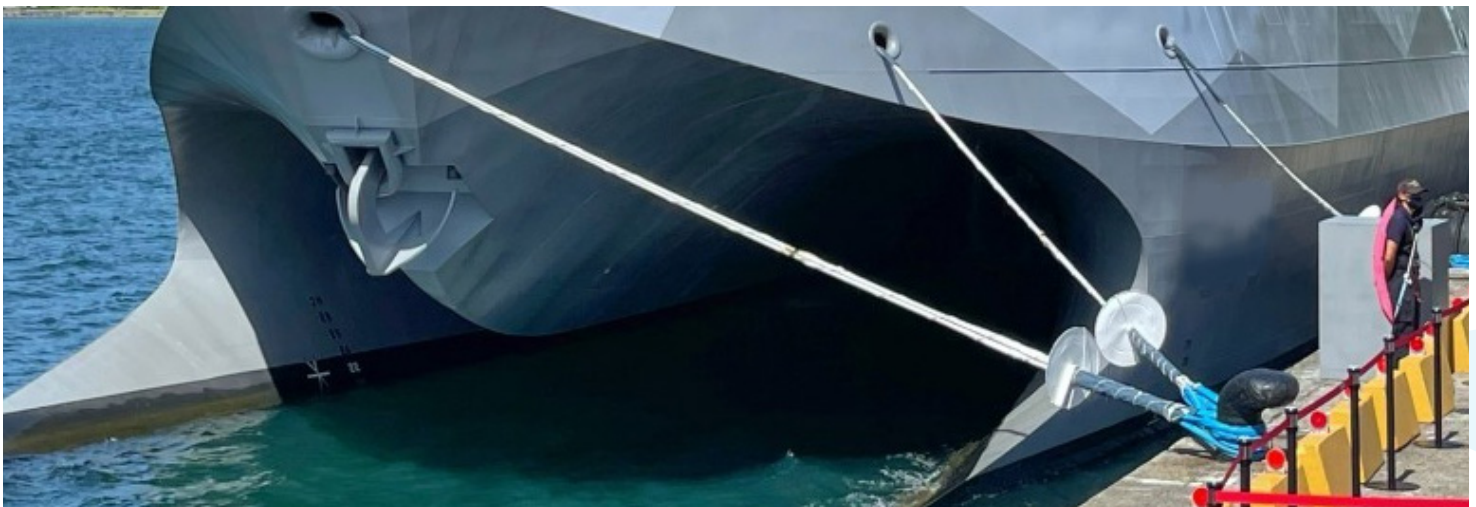

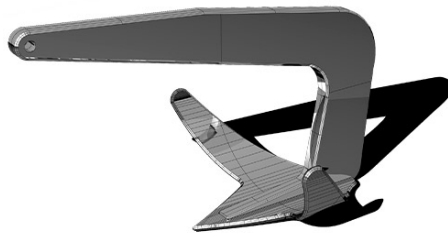

The only one made in Italy by qualified workers.

Certifications:

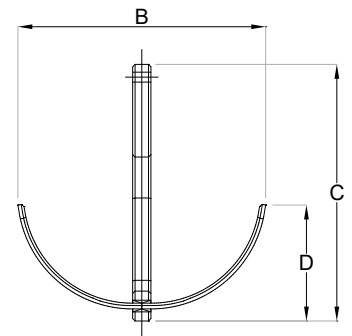

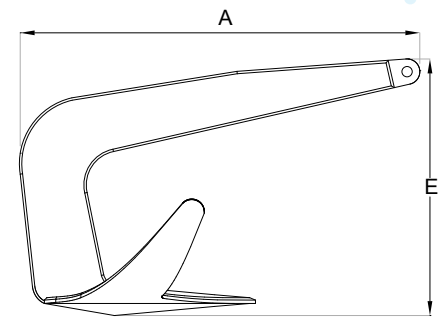

Available in the following finishes:

- Specific painting
- Hot-dip galvanized
- Super yacht execution
- Mirror-polished Duplex Stainless Steel
