MOORING AND TOWING MARINE EQUIPMENT

As precious as "who's" wearing it

Art and Crafts

When industrialization is outdone there is a return to art and crafts. Crafts are actually the basic foundations of industrialization.

Only thanks to the competence and professionalism of Posidonia and Crystal Caviar this combination of expertise and craftsmanship is possible. A superb collaboration that creates a spectrum of luxurious customizations.

Art and Crafts

Today, thanks to competence, experience and humans' point of view it's possible to create bright, sparkling anchors. All the others will appear to you to be mundane anchors.

The decorations can be carried out with 3-5-7mm diameter crystals, and using different colours.
